ABOUT ME

A self motivated student, developer and a lifelong learner with an open and inquisitive mind. I love to code, and I'm inclined towards open-source technology and cybersecurity. I am always open for new challenges and opportunities. I am a team player and always willing to step up as a leader. Some of my key strengths are:

- Hands on programming experience in **Python**
- Commitment, determination and problem solving skills to execute a task to completion
- Familiarity with *nix Operating systems and Relational databases
- Aptitude for automation, information security and software development
